# Veto Alberta Plan To License Banks

A well-known Edmonton landmark was destroyed and two city firemen were injured, one requiring hospital treatment, in sub-zero weather Monday as flames destroyed the frame and stucco plant of the Alberta Motor Boat Co. Ltd.,

## Ask Approval U.S. Atom Plan

LAKE SUCCESS, N.Y. (AP)—The United States and Great Britain demanded Tuesday that the United Nations atomic energy commission approve the United States plan for harnessing atomic energy but Russia asked for more time to study the whole question.

Andrei A. Gromyko, Russian delegate who rejected the U.S. plan last summer, said he had not an opportunity to study the United States proposals made Dec. 5, embodying the essential of the American plan, but the whole of the arms reduction section will be the general assembly last Sunday.

Gromyko spoke after the United States, Britain, Canada and Australia indicated they were ready for action now on the American proposal.

Bernard Baruch left Tuesday with a call for an end to debate and a vote.

Sir Alexander Cadogan, British delegate, quickly seconded in the report that the commission must make to the United Nations.

The commission is considering policy for its political committee to follow in drafting the recommendations section of a report the commission must make to the United Nations security council by Dec. 31.

**Bulldozer and Fence Stolen in U.S. Town**

CHICAGO, (AP)—Police had another to investi-

gate when someone stole a ton-ton bulldozer from a construction job.

Monday the police had to investigate the theft of a 40-ton-ton fence. They found a gang of boys had made a clubhouse of the fence.

Two of the boys had the job of replacing it.

**Assembly Okays New Blum Cabinet**

PARIS, (AP)—The French national assembly confirmed Prime Minister Georges Cagire's nomination of a new cabinet to head a five-week caretaker government. The vote was 380 to 16.

**Ask Hours For Waitresses**

CALGARY, (CP)—Waitresses to be permitted to work until 12:30 a.m. were forced to report at 12:30 a.m. Jerry Puckett, representative of the Canadian Hotel Association, said at a hearing of the board of inquiry.

The board was investigating minimum rates on minimum shifts and other matters. It will sit at Lethbridge Tuesday and Medicine Hat Wednesday.

The Trades and Labor Council advised a 40-hour week, if a 40-hour maximum was set, if a split shift of a total of eight hours was completed with a three-hour period.

**The Weather**

Forced to leave Wednesdays, southwest winds 15 m.p.h. mild.

Temperatures are moderating throughout Alberta Tuesday as a flow of new air enters the province from the west. The mercury climbed from 24 below on Monday evening to 10 above Tuesday morning.

Today's forecast: Wednesday, cold but with slightly higher temperatures in the western portion Wednesday after-

noon.

Estimated low tonight, 5 below.

At Edmonton, Wednesday, sun 80°, 60°; 11°. Yesterday's maximum, 10 below.

Overnight low, 21 below.

LONDON, (AP)—Retirement, effective Jan. 1, of Gen. Sir Hastings Hope, 69, from his wartime post as chief of staff to the British army, the joint chiefs of staff, an assignment he had filled since being appointed by Winston Churchill in 1940, was announced Tuesday.

He has completed a combined command for two-and-a-half years.

He has been promoted to a combined command for two-and-a-half years.

In marked contrast to Monday's blizzard, clear skies and light winds prevail throughout the province today. It will continue clear and cold through most of Saskatchewan and the prairie provinces with slightly higher temperatures in the western portion Wednesday after-

noon.

Estimated low tonight, 5 below.

At Edmonton, Wednesday, sun 80°, 60°; 11°. Yesterday's maximum, 10 below.

Overnight low, 21 below.

## Two Firemen Hurt as Blaze Destroys \$85,000 Boat Plant

(Continued from Page 1)

parts of boats, airplane seats, dog skins and other equipment stored in the building.

The fire was set at 1:37 p.m. The alarm was turned in by Frank Dynes, 10709 75 ave., a plant employee who had been working on building up fire. He had been notified by other plant employees.

He quickly called the fire department. In the meantime J. Weir, 9656 86 st., a brother of the owner, J. W. Weir, 9656 84 ave., took extinguisher from a wall and attempted to put out the flames.

When the fire department arrived, the south east of the building was engulfed in flames. James MacGregor ordered his men to concentrate their hose lines on that part in an attempt to prevent the flames from spreading to the roof, which contained many valuable contents and fixtures were situated.

A light wind and a wild fire started in the northeast corner and before long the southeast roof collapsed and the flames started spreading.

**Jumped 20 Feet**

Two firemen, one of whom is Fireman Glickfuss, suffered a foot injury. He was on a 20-foot ladder at the northeast corner of the building when a slight explosion occurred and

flames broke through a glass window underneath the ladder.

He had his head close to the window when he heard a noise close to the window he did not realize his danger until fire chief told him to get out. He shouted: "You better jump. Get out of there."

He jumped toward the ground. Fireman Glickfuss saw his flight, and drawing his hose, he aimed about 15 feet above the ground and hollered some loose lumber as he landed and he quickly was helped from the burning building by his colleagues.

He was taken to the plant owner's car and the plant owner's car was taken to the hospital.

**Plant Fully Insured**

The plant was fully insured in 1937 by Fireman Glickfuss.

This plant was fully insured according to Mr. Weir, who said that the insurance company has a policy of \$85,000 for all parts of western Canada, sleds, traps, boats and fixtures.

Mr. Weir said there was a large stock of second sevens lumber in the plant. Mr. Weir said he believed this number, along with the canvas and leather used, would have been difficult in combating the flames.

The plant, which stands from 100 ft. to 150 ft. from the nearest fire, has fire roads, fire hydrants and a water system of its own.

Mr. Weir said that the plant, which the Macdonald family was on

Cut on Wrist

Fireman Glickfuss, who is well-known as a former rugger and football star, cut off his right heated wrist while fighting the flames.

"I don't know how it happened," he said. "I was carrying one of the fire axes for medical aid. He received treatment from Norman Hospital and was sent home in serious condition. The majority were covered with lesions they had been given by the heat."

No all-out signal had been given in the blaze at 1:37 as several firemen kept a sharp eye on the smoke and the smouldering ruins with water.

**Head Up Traffic**

During the blaze, trailer bus and truck traffic was held up. A bridge was held up for a considerable time as lines of hose were run across the bridge.

Fire Chief MacGregor said there was no necessity for holding up the traffic because the firemen had no mission to run the hoses over the bridge.

The court found it did not have completely to understand the defense of Hon. Lucius Maynard, Alberta attorney-general, who argued that the term included chartered banks under the Dominion Bank

**Contracts Tell Of Gifts to Biblo**

By Peter Inglis

WASHINGTON, Sept. 1.—Articulating most strenuous objections over the proposal to bring railroads under government control, the minister said bluntly he would not allow independent truck operators to be discriminated against.

Praising the present system of transportation, he declared: "It costs." Sir David declared that expansion must skyrocket "under a mongrel system of regulation, top-heavy and whose structural defects are as wide as its powers, we will have to do away with it."

Mr. Barnes said the bill was the most important bill introduced, and must ever presented to a free democratic parliament.

**Man Behind System**

The minister said 45 percent of the railroad system was controlled by the government, and that nationalization could Britain unify its transportation to permit repair of existing railroads.

Mr. Barnes praised as fair the proposed system of compensation for railroads, and the market quotation of railway stocks and issuance of British transport stock in exchange.

**To Cover Trucks**

Articulating most strenuous objections over the proposal to bring railroads under government control, the minister said bluntly he would not allow independent truck operators to be discriminated against.

Praising the present system of transportation, he declared: "It costs." Sir David declared that expansion must skyrocket "under a mongrel system of regulation, top-heavy and whose structural defects are as wide as its powers, we will have to do away with it."

Mr. Barnes said the bill was the most important bill introduced, and must ever presented to a free democratic parliament.

**Says SS, Doctors Injected Poison**

NUERNBERG, (AP)—A German legislator testified Tuesday he recently had conferred with doctors of the Nazi party on the proposed extension of the P.G.E. railway and as a result the doctors had recommended the extension of the rail line into the River area.

He said the doctors were seeking a way to make the railway more efficient and then superimposed by a shortage of water in the camp.

**Says U.S. Making War Remote Now**

WASHINGTON, (AP)—Possibly the most dramatic moment of the trial of Dr. Reinhold Maier, 42, a Social Democratic party deputy in the Bavarian legislature, at the trial of 20 Nazis charged with experiments on human beings.

He said the doctors were seeking a way to make the railway more efficient and then superimposed by a shortage of water in the camp.

**Sees U.S. N. Making Big Plan to Make Big Grain Exports**

WASHINGTON, (AP)—The United States, which last month announced it would export 725,000 long tons of wheat, corn and other grains for storage areas abroad.

The Texas Democrat indicated he believed the United States is completed and that he would give up his role as advocate to the American Farmers in extending the railroad.

Hatti shipped 2,371,241 gallons of

grain to the United States in 1938.

James Glickfuss, a fireman, was

burned in the right hand when he

was trying to get out of the burning

building.

He quickly called the fire depart-

ment. In the meantime J. Weir, 9656

86 st., a brother of the owner, J. W.

Weir, 9656 84 ave., took extin-

guisher from a wall and attem-

pted to put out the flames.

## Canadians Benefit By Big Fruit Pack

**By H. R. Hardy**  
OTTAWA.—With packed fruit off the market, Canada is at present one of the most spectacular fruit crops in many years, and with an export quota of 1,000,000 cases resulting in one of the biggest packs ever sent abroad, the Canadian household is going to be able to stock up her pantry shelves during the winter days so reminiscent of pre-war days.

Even after allowing certain commitments to Great Britain, respect to tomatoes and tomato juice, and allowing a certain percentage of the total fruit crop to go to pack for export, Canada is going to have more fruit here this year than she has had since the beginning of the war.

Heretofore, the figures on the 1946 canned fruit pack:

Apricots, 102,000 cases, an increase of 1,000,000 cases; cherries, 169,000 cases, an increase of 128,000 cases; peaches, 1,000,000 cases, an increase of 1,000,000 cases; peaches, 164,000 cases, an increase of 16,000 cases; apple juice, 1,000,000 cases, increase of 840,000 cases.

The figures in respect to the vegetable pack are as follows:

Tomato juice, 2,429,000 cases, an increase of 3,007,000; tomatoes, 1,625,000 cases, an increase of 1,000,000 cases; 4,250,000 cases, increase of 3,100,000 cases; 1,681,000 cases, increase of 1,320,000 cases; 1,230,000 cases, increase of 92,000 cases.

Last year, Canada sent Britain 73,000 cases of tomatoes and 230,000 cases of tomato juice. She will send 100,000 cases of each this year.

Officials of the price board said just because Canada had a record pack of fruit and vegetables this did not mean that the board would not permit them and leave Canadians short. Canadians are to have first call, as usual.

Certainly no sweetened canned fruit will be exported, as these contain rather high sugar.

**'Warns' Against Keeping Gas Tax**

SASKATOON, (CP)— Provincial governments were warned Monday by the federal government not to "flirt" with the idea of levying the three-cent gas tax again, as the new federal tax will be removed April 1.

John Lewis, president of the Union of Canadian Municipalities, said it would warn provincial governments against it.

When provincial farmers requested the federal government to remove the tax, he did so with a view to reducing their operation costs and to increase provincial revenue," he said.

**ROCKET OVER LISBON**

LISBON, (Reuters)—The semi-official Portuguese news service Diario de Lisboa reported yesterday that a rocket bomb was reported to have been over the outskirts of Lisbon after it had exploded in a southwest direction toward the sea.

## 23 Nazi Doctors Face December Trial for Mass Murders

Twenty-three German doctors arranged to stand trial early in December on charges of murdering thousands of inmates of con-

centration camps in Nazi medical clinics, the court heard yesterday. They will be tried in the Nuremberg courtroom where top-ranking Nazis recently were

tried by an Allied military tribunal for war crimes committed behind the scenes, among which is one woman doctor, as they plead not guilty to the charges.

Health Services

### Short of Doctors

**By H. R. Hardy**

OTTAWA.—Scientists and medical men generally, and not the only professional men, the dominion government is finding it hard to obtain and hold, owing to the compensation rates paid by government departments.

## Dominion Retains Security Program

VICTORIA, B. C. (CP)—Premier Hart said yesterday from Ottawa that a new tax agreement also has brought from Prime Minister King that public investment and security program submitted to the "green book" of August, 1945 would remain intact. He said the dominion government's program.

Mr. Hart said he had discussed with the prime minister measures for old age pensions; that the dominion government would assume full responsibility for all old age pensioners without a means test.

The prime minister assured Mr. Hart as soon as there were sufficient funds available under the new tax agreement the dominion would be ready to expand the existing arrangements to make available the earlier investment and social security proposals.

Canada's Veteran Leader

Prime Minister Mackenzie King is 72 years old today. He is thus a member of two years' standing of that distinguished minority who live beyond the proverbial three score and ten. But he is not the only one found to be still "going strong." A year ago he said he felt better than he had for some years. Observers at the Capital agreed that his manner of speech was not the step of his study specimen of Canadian manhood. And the hope is unanimous that these words remain true him very many years.

Mr. King does not own his unimpaired health and strength to a life of ease. For 38 years he has been in the hurly-burly of public life, and must have paid a heavy toll in health and spirit that time under the strain of political activities.

For upwards of three decades Mr. King has been leader of the Liberal party. For over 20 years he has seen his party first lined up on to form a government. And for more than twenty of those years he has been prime minister. No other Canadian, living or dead, has held the post so long.

Seven years ago, at 65 years of age, he faced the task of leading this country into a world war.

He probably did not then realize that he should be in it—1939. But a few weeks ago he told a press conference that he had considered whether to go to war or not, and said that since by-elections had been lost and the government's majority in parliament had fallen to small proportion. That is characteristic. He is not a man to do things unless his opponents willingly lead him to them.

They will join also without reservation in hoping that this veteran leader may long continue to enjoy good health. He has worked his career, and give to the Canada he loves the benefit of his wide experience and ripened judgment.

It is timely to note that Mr. King was the first national leader to openly declare his willingness to forego some measure of national sovereignty in order that the United Nations organization may succeed in preserving world peace. His birthday will be brightened by the news that the Assembly has moved, unanimously, to dismantle armaments.

**The Assembly Made History**

The world is headed, definitely, toward disarmament.

In the closing hours of the session the delegates to the United Nations Assembly instructed the Canadian delegation to propose a general all-round reduction of armaments, in proportion to national requirements for non-aggressive purposes, under an international inspection system, stipulating that countries should scale down their fighting forces and maintain in accord with this plan.

This does not mean that the proposal was turned over to the Council for burial in a pigeon-hole. The Council is told to report back to the Assembly when it meets again, either presenting the plan called for or explaining why none of the members of the Council had not been shelved, nor the Council left to do as it pleases. The Assembly wants actions, and is to get them or to tell why they cannot.

The delegates did not bother to insist on a recorded vote on the resolution. They demanded their unanimity by cheers when the question was put, with none dissenting by silence.

These cheers will bring responsive approval in every part of the world they extend the dreams of millions of men and women everywhere as they contemplate the possibility of another—and worse—global conflict. And they voice the wish of enlightened peoples that war is a handmaiden of the dark ages, for deliberately continuing which there can be no moral justification.

These cheers, not of course, start to cut down their armaments forthwith. That would be folly on the part of any until all are pledged to do so and the "truce" is signed, a next year will bring demands for immediate reductions.

The controller of the Mounted Police reports that Indians in the Northwest were never more contented or prosperous than now.

**1896: 50 Years Ago**

Canadian nurses in U.S. hospitals are departing.

Hon. S. A. Fisher, Canadian minister of agriculture and Merton Morton of the U.S. cabinet have agreed to modification of international arbitration regulations.

The U.S. Senate acknowledged the independence of Cuba. The Spanish government does not regard the action as serious.

The Canadian naval squadron is to be increased to fifteen ships and important fortifications are to be built on the Atlantic coast.

**1906: 40 Years Ago**

Official delegation of Italian majority goes to Rome for a majority of six out of nine.

There has been a strong revival of the war scare in Europe. Von Moltke has been reported as saying there will be no war while Emperor William lives.

The controller of the Mounted Police reports that Indians in the Northwest were never more contented or prosperous than now.

**1916: 50 Years Ago**

Both sides are to meet in the House of Commons in a debate in parliament—the consequences might be far-reaching, the statement says, that would result in the general bankruptcy of Europe.

Therefore the program of the Italian government is to maintain and consolidate the triple alliance with France and Great Britain.

**1916: 30 Years Ago**

Editor of the Times in the House of Commons election inquiry has been made public.

Washington Fall and Doherty were acquired on the conspiracy charge which grew out of the Senator's inquiry.

John Stanfield, chief government whip, has resigned.

**1926: 20 Years Ago**

Mr. Justice Clarke's report on the Athabasca election inquiry has been made public.

Washington Fall and Doherty were acquired on the conspiracy charge which grew out of the Senator's inquiry.

But the military, naval and air armaments, designed for these purposes, will be trifling in comparison, will cost relatively little, and will not in themselves constitute a menace to peace.

How far the Council's plan will go, how rapidly armaments will be recommended, and what the Assembly will do when the report comes, are matters of great interest to the personal ascendancy—if allowed to proceed.

But the military, naval and air armaments, designed for these purposes, will be trifling in comparison, will cost relatively little, and will not in themselves constitute a menace to peace.

Had the Assembly done nothing else, this would stamp the session as one of the history-making events of all time; perhaps the most important international meeting held in the personal ascendancy—if allowed to proceed.

But the military, naval and air armaments, designed for these purposes, will be trifling in comparison, will cost relatively little, and will not in themselves constitute a menace to peace.

But the military, naval and air armaments, designed for these purposes, will be trifling in comparison, will cost relatively little, and will not in themselves constitute a menace to peace.

How far the Council's plan will go, how rapidly armaments will be recommended, and what the Assembly will do when the report comes, are matters of great interest to the personal ascendancy—if allowed to proceed.

But the military, naval and air armaments, designed for these purposes, will be trifling in comparison, will cost relatively little, and will not in themselves constitute a menace to peace.

Had the Assembly done nothing else, this would stamp the session as one of the history-making events of all time; perhaps the most important international meeting held in the personal ascendancy—if allowed to proceed.

**Orphan, 15, Given Life for Murder**  
WILLISTON, N.D. (AP) — Don G. Miller, 15, an orphan who pleaded guilty to fatally stabbing Mrs. Kathryn Fletcher, 63, has just been sentenced to life imprisonment.

The boy made no comment as sentence was passed. He was barely 16 as he was led from the courtroom to a car owned by the sheriff: "Why didn't they give me the hot seat and be done with it?"

He said an adjustment of the sentence would be helpful if Canada's favor would be granted.

St. Stafford praised the work of the Canadian delegation to the recent preparatory international trade conference. Canadian spokesman had urged the Commonwealth and the Kingdom, favored multilateral action to expand trade. World-wide expansion of trade would help countries and make possible imports of non-essential goods in the United Kingdom.

"There must be a realization by all countries that the time is past when a country can still keep its own market to itself," he said.

Efforts to balance trade with Canada uniformly have failed, he said. An effort to get better terms for Canadian imports from the United Kingdom took place in 1945. The results were only about a third of what was expected. The condition was exaggerated and even though the present situation, Canadian exports were about \$15 to 1.

A government tax of 10 per cent of the cover charge is forcing many night clubs in South Africa to close.

Here's sweeter, tastier bread

with FLEISCHMANN'S  
FRESH  
**ACTIVE**  
YEAST

IT'S FULL STRENGTH so it goes right to work. No waiting. No extra steps. Fleischmann's fresh active Yeast makes bread that's more delicious and tender, sweeter-tasting every time!

IF YOU BAKE AT HOME—Get  
Fleischmann's active fresh Yeast  
with its familiar yellow label—  
Dependable—it's been Canada's  
favorite for more than 70 years.

Always fresh—at your grocer  
MADE IN CANADA

## Fascinating MARBLE CAKE Your Cakes Can Be Grand as This!

SUCH beautifully marbled cake—tender, moist and deliciously flavored—seems almost too grand for home bakers to make. But you don't need to be an expert, to get results like this with Swans Down Cake Flour!

Swans Down makes cakes that are wonderfully even-textured, light and velvety-crumb—help them stay fresh longer. Even when you batter, shorten, sugar or eggs, results are exceptional with Swans Down.

Milled from choice Canadian wheat, Swans Down is sifted and re-sifted through silk, until superbly even and 27 times as fine as ordinary flour. Ingredient-saving or regular recipe, you'll bake a better cake with Swans Down.

**MARBLE LOAF CAKE**  
2 cups sifted Swans Down flour  
2 teaspoons Caker's Baking Powder  
1/2 cup shortening (part butter preferred)  
1 egg  
2 eggs, beaten light  
.5 cup milk  
1 teaspoon cinnamon  
1 teaspoon (teaspoon) cloves and nutmeg  
2 tablespoons molasses

Sift flour once, measure, add baking powder and salt; sift three times. Cream shortening and sugar until light; cream until light. Add eggs and cream. Add flour, a small amount at a time, alternately with milk. Mix well after each addition. Have batter to half full. Pour into two greased loaf pans. Fill into greased loaf pan, 8 x 4 x 3 inches, alternating light and dark layers. Place in oven and bake on light in, second layer. Bake in moderate oven (350°F.) about 1 hour and 15 minutes. Good with white or caramel frosting.

A prize-winning Cake Flour for over 50 years

Package

How Swans Down is Different from Ordinary Flours:

Finer—so little sugar is finer than granulated!

More even—so graded peas are more evenly sieved!

Longer shelf life—so it stays whole longer!

What's selected for soft gluten—so you choose most cuts for tenderness!

**PAIR OF CHAMPIONS:** The above picture was taken during the Alaskan Division, Air Transport Command, USAF, boxing championships in May, 1945. Sgt. Joe Louis, heavyweight champion of the world, had just presented to the most outstanding boxer in the then recent city section, Hugh MacDonald, the championship of Alberta, made Art McBarnish of Wildwood, in the main go for the YMCA amateur boxing card at the Y here tomorrow night. Miles Palmer will referee all bouts and Mickey McGuire and Barney O'Connor are the judges.

## Practical Jokes In NHL Recalled

By Alan Harvey

**NEW YORK,** Dec. 17 (CP) — Portrait of a sports writer sitting at a hotel bar, swapping stories with the men who knew hockey when . . . "Who was hockey's greatest practical joker?" somebody asks, and coach Dick Irvin of Montreal Canadiens suggests that the honor belongs to his old boss, Tommy Gorman, with Frank (King) Clancy, Charlie Conacher and Clarence (Happy) Day drawing a passing nod from the rest of the company.

Gorman used to make up phony fancy names to confuse the old Montreal Maroons (usually with him telling the players he'd be devil's favorite adversary, manager Art Ross of Boston Bruins . . . Ross, once a star player himself, is absent from the sideshows of Paul). Gorman obtained one night by telephoning Gorman long-distance to Boston, and getting the Boston's Eddie Laverne, and could be please bring some school children to the arena. When the boys appeared, Gorman, when asked how many kids were coming, "about 200," replied "Fathers," Laverne said. "Two hundred," wailed Gorman, "then you meant a dozen or so. Where are the kids from?"

The Boston schoolboy "school," said Ross, placing the telephone gently in its cradle.

## Drillon Gives Chase When Fan Too Abusive

By Mel Sulfirin

**CHARLOTTETOWN,** Dec. 17 (CP) — With the exception of a sailor on a two-day shore leave, and maybe a woman who shot a particular species of mankind known as the "water fan" it stands to reason that humans have left humans when it comes to the water.

For in what other pursuit can a man be cheered as a hero one minute and reviled as a scoundrel the next?

A good example of this lightning-quick change in feeling has been the hockey player career of Gordie Drillon. Few sportsmen have been so willing to admit to the fickleness in sport that the erstwhile right-winger of the Montreal Canadiens, now the Detroit Red Wings, has become the best-known Canadian.

**IT WAS REMINISCENT** of the old days. The National Hockey League when Moncton-born Gordie started out on the ice, he had won the hearts of Charlottetown Legionnaires in the city's first ever championship.

The same ended in an 8-8 tie and Gordie indulged in a lucrative exercise of pickpocketing, scoring a pair of goals and getting away with it.

But it was in the third period that brought back fond memories of Gordie's days five years ago with the Toronto Maple Leafs to the beginning of the season.

The game ended in an 8-8 tie and Gordie indulged in a lucrative exercise of pickpocketing, scoring a pair of goals and getting away with it.

It was in the third period that brought back fond memories of Gordie's days five years ago with the Toronto Maple Leafs to the beginning of the season.

EDMONTON, ALBERTA, TUESDAY, DECEMBER 17, 1946

## City Asked to Grant 3,000

## Seek Option on Lots For Building of Homes

Request was made Tuesday by the Edmonton Home Builders Association to the city commissioners that the city give an association an option on 3,000 lots serviced by sewer and water on which homes would be constructed.

**THE REQUEST** was made by a delegation of Mayor contractors and officers of the Alberta Central Mortgage and Housing Corporation, and the Edmonton Home Builders Association. Chairman of the delegation was Robert H. Rae, chairman of the Edmonton Home Builders Association.

In the submission to Mayor Harry Ainlay and the commissioners it was stated that the association recognized the need for additional housing under a properly planned program, and it was planned by the association under consideration a two-year program beginning at once, with building to proceed under a plan developed by the federally-sponsored controlled price plan, as may be announced.

**THE REQUEST** for the option on the 3,000 lots was made by member contractors of the association can provide low-cost housing consistent with the plan and conforming to National Housing Act standards.

Mr. Rae pointed out that the shortage of serviced land has seriously retarded the building of houses in Edmonton, and said if houses are to be built for sale at a reasonable price, more land must be made available in fairly large groups of lots and at a minimum cost.

It is requested that the association's request will be submitted to city commissioners in the near future.

**MEMBERS** of the organization waiting on the mayor and commissioners were: R. H. Rae, president; E. K. W. Alton, vice-president; G. Querencier, A. Plum, George Clark, C. R. McGehee, National Home Builders' Association (Western Division); E. B. Lampert, president, Mutual Life Loan Association of Alberta; D. F. Ross, branch manager of construction, George W. Gallop Corporation; George Watt, president of Edmonton Residential Lumber Dealers' Association.

It is requested that the association's request will be submitted to city commissioners in the near future.

Mr. Rae said: "On this new year of life I can look out at a brighter future than since before the birth of my son."

The following message was sent from the Canadian Liberal Association, and was typical of the many "Warm congratulations and birthday greetings from Edmonton Liberals." It was signed by T. C. Cross, president of the Canadian section, and Ronald D. White, KC, sending the message on behalf of the organiza-

tion.

**FROM OTTAWA** came word that "business almost as usual"

was the order of the day for Mr. King. A fairly busy day's agenda confronted him as he tackled it with customary vigor, as his health and spirits were "particularly good."

Only one engagement was made to the event. The cabinet meeting which normally takes place on Tuesdays was postponed to Wednesday.

But otherwise it was a working day, and Mr. King had time to "look like every other day," a member of his staff said.

An Ottawa dispatch quoted Mr. King as saying: "On this new year of life I can look out at a brighter future than since before the birth of my son."

**IT WAS REPORTED** that the messages came to Mr. King's library at Laurier House from students in political economy at Harvard University, who had been determined to follow a career of socialized and economic studies rather than politics.

Mr. Laurier appointed him minister of labour while Sir Wilfrid Laurier was in the 1911 election when reciprocity was the issue, and he defended it in his arguments.

For the next few years he was occupied with various activities and when Sir Wilfrid Laurier died in 1919 he was asked to choose him as party leader, a post he held ever since. Though a good deal had been done to restore the destiny of Canada for a greater number of years than any other minister in the history of the British Empire.

In the recent war he was determined to make a contribution to the Allied victory one of the utmost significance and importance, and succeeded in doing this throughout the world.

He has travelled extensively throughout the world, and is a familiar figure in London and other world capitals. He has attended numerous international conferences and has headed Canada's delegations to the League of Nations, the San Remo Conference, and the recent Paris peace conference.

Several books stand to his credit, and he is well known as an authority on social and labor questions.

One of his greatest projects has been the beautification of Ottawa. He has no hobbies, but enjoys golf and tennis. He is a member of the Gatineau Club, 20 miles from Ottawa where he does much of his work.

A STANCH PRESTONIAN he is a consistent churchgoer. He is fond of his home at 1215 Jasper Avenue, where he resides with his wife, Mrs. Arthur Laurier, bequeathed to her by the Liberal party in her will.

There were no attempts of disloyalty or disaffection on the part of employees to evade regulations. Mr. King stated.

**GERMANS PRESIDE AT NUERMBERG TRIAL:** First six of the 48 German doctors and nurses charged with mass killings are facing trial before a six-man German court, the first time Germans presided at the trial of fellow

nationals charged with war crimes. In the historic court of Nuremberg 23 Nazi doctors stand in prisoners' box as judges enter. Trial centres about Eichberg killings.

★ ★ ★

**HOME AGAIN:** Arriving in New York, the SS Officer, Mrs. Birthe, Swedish social actress, demonstrates what photographers expect in her native land. She has been away since 1933 and will try to regain the American citizenship she lost when she married in Sweden.

**ANTI-NEGRO RIOTS IN CHICAGO:** Violence flared at a Chicago veterans' housing project when two Negro families began moving into homes assigned them

despite the presence of 250 police on hand to keep order. This woman, knocked down in the disturbance, grabs at officer's baton.

★ ★ ★

**PASTOR NIEMOELLER ON TOUR:** Confined by Hitler in a Nazi concentration camp for eight years, Pastor Niemoeller is in the United States to speak to the

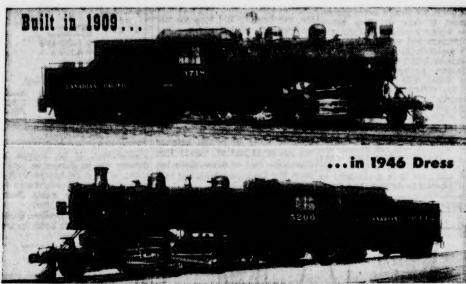

Council of Churches of Christ. He is seen here with his wife and a British officer at the door of a German church in London, England.

★ ★ ★

**GANG UP ON HOLLYWOOD FILMS:** A welcome answer to Hollywood's juvenile actor problem are Clifford and Raye Severn and their eight children. Casting directors rely on the group to produce at least one candidate for almost any role. The Severns have been represented in 158 movies in the last 11 years, and their income totals about \$50,000 a year. Pictured above are: (front row, left to right) Christopher, 10; William Roosevelt Churchill, 11; and Winston Franklin. (Back row, left to right) Clifford Severn; Raymond, 14; Venetia, 22; Yvonne, 16; Clifford, Jr., 21; Winston Franklin MacArthur, 3; and Mrs. Raye Severn.

**BUILT IN 1909...** ...in 1946 Dress  
BEATING SHORTAGES: Material shortage and the allocation of Canadian-built locomotives for export to war-torn rail lines abroad, the twin obstacles to post-war en-

gine replacement, are being met by the Canadian Pacific Railway in the conversion pictured here in which "3700's" were changed to "5200's" for freight service.

★ ★ ★

**TAN'S EASY:** While most of the country shivers, in Hollywood Iris Brynn gets a refreshment from James Rinck during filming of a South Seas epic.

**LEADERS OF "ILLEGAL" ARAB FIGHTERS:** Until recently split into two rival factions, the Najada and Futawa, Palestine's "illegal" Arab army is combining under the able leadership of Haj Amin el Hussein, former Mufti of Jerusalem. Exclusive photo above shows Kamel Arikat, left, Futawa commander, with his aides during recent "council of war" in a Haifa suburb. Behind him, right, is Kazem Seh Hussein, cousin of the Grand Mufti.

★ ★ ★

**QUEEN OF WHEAT GROWERS:** Mrs. Charles Kelsey of Erickson, B.C., holds a sample of the wheat which won her the wheat championship of North America at the Chicago Fair recently. A rural mail carrier, Mrs. Erickson was out on her long daily round delivering letters when news came that her wheat was the best at Chicago.

★ ★ ★

**SURPRISE PACKAGE:** Ordinarily, wherever artist Milton Caniff — the most beautiful ladies at hand are the ones he draws — but at the recent Banshees' luncheon in New York's Waldorf Astoria, at which Milton was guest of honor, there was a live "surprise package" to match any of his creations, in the person of June Havoc. The lovely blonde star of "Dynamite" was there, tantalizing the famous cartoonist on his new affiliation with The Edmonton Bulletin, for whom he begins drawing a new adventure strip next Saturday. That's Caniff's celebrated "Miss Lace" looking on quizzically in the background.

**RACING RETURNS TO TOKYO:** Some 30,000 racing enthusiasts paid more than 75,700 yen for pari-mutuel tickets when the sport was revived at the Fuchu horse

racing stadium in Tokyo, for the first time since it was banned there in the fall of 1943. Horses are shown parading in open air paddock behind the grandstand.

**SANTA CLAUS' REINDEER:** Four deer on the farm of Hiram Wilson, near Eno, 20 miles west of Fort Frances, Ont., Blitzen, the mother, and Judy, left; Don-

ner, front, and Cutie, right, are shown around the feeding trough. Blitzen, found in 1943 as a tiny fawn, was raised on cow's milk.

**YOUTH TRAGEDY:** Father Florence Martin, 14 (above), became a widow when her friend, James Ladd, 17, both of Picton, Ont., stayed out too late when they returned home last night. The police say the father, Thomas Martin, beat Ladd to death, then gave himself up to authorities.

**"MR. CANADA" RETIRES:** To thousands of hunters and fishermen and just plain tourists, Ernie Poole has been synonymous with Canada for more than twenty years. His work as General Tourist and Convention Agent for the Canadian National Railways, which he is now relinquishing to go on pension, made him familiar to tourists and sportsmen throughout North America as one of the most knowing guides to hunting and fishing places in Canada. To his wide experience of the country and its wild life he added an intimate knowledge of men, and as one magazine put it, he is the "possessor of one of those personalities that makes it possible for him to fit in perfectly at some lonely campfire or at the head table in a great hotel in one of our biggest cities." Not only did Ernie come to know Canada as intimately as he did his favorite fly-fhook, but he had a hand in making it for the sportsman. He has been responsible for stocking many a lake and stream with fighting fish, for opening up new territories and improving facilities such as trails and bridges.

## Not All Fitted For Home Responsibility

We have vocational guidance clinics. What a pity it is that there is no matrimonial guidance clinic where candidates for the holy estate can have themselves photographed to determine whether they are fitted for domesticity or not.

**FOR CONTRARY** to the general belief, not all men and women are born with a natural talent for being good husbands and wives any more than they are born with a taste for art or dancing or carpentry. And that is the truth that is chiefly missing in our society today. Too many people take up a career for which they have no aptitude, and so they make a poor job of it. There are round pegs of domesticity that never fit into the holes of family life.

There are so many people, who should never marry just because they are not matrimonial material. Take, for instance, the whalers. The man who is born with a restless foot can no more help wanting to be a sailor than he can be a coker of his hair or eyes. No woman on earth can hold his feeble fingers long enough to get him to kiss her. Miss America if he were married to her. And the vampires vamp would be forever at the peripatetic end of the flannel around the corner.

**SUCH MEN** should never marry, because if they do then break their wives' hearts with their unfaithfulness and poison their lives with jealousies. Still, they are an asset to society. They provide dates, romances, thrills to the women they favor, and the sight of them that is without intentions, but as husbands they are total losses.

The tightwad man should never marry, because if he does then the cost of a wife and children in dollars and cents, they are a major investment. And the last time that he is giving himself a treat when he surprises Maria with a mink coat, he will be surprised to find work himself to death to buy John-

"How am I going to buy you a surprise Christmas present if you don't know what you want?"

"WE WON'T SWALLOW THAT! UNCLE AMOS KNOWS WHERE TO FIND GOLDEN EGGS! YOU'VE HEARD THE ONE ABOUT THE GOOSE THAT LAID THE GOLDEN EGGS? THIS IS A SPECIAL FOR UNCLE BILLY WHO BELIEVES ANYTHING CAN HAPPEN."

"I DON'T WANT ANYMORE EGGS! THEY DON'T TASTE ANY BETTER THAN THE GOLDEN EGGS! SIMON KNOWS GEESSES CAN'T LAY GOLDEN EGGS! SADDLE UP, BOY!"

"QUITE SO ALONE, BUT IT'S STILL A GOLDEN EGG."

OUT OUR WAY -- by J. R. Williams

### Bridge

By William E. McKenney

In my third and a series of six articles on the most fascinating play in the world, I will discuss the game of bridge, its history, and the rules.

I suggest that you clip the six articles on the smoother play in the next section and study the play from all angles.

Timing is the important thing in the smoother play, and very often the timing of the declarer's play is recognized. That is why it is difficult to execute the play.

In today's popular ruffs, the round of diamonds and leads the Jack of clubs. East of course refuses to win, as he does not have the King. West is dummy for declarer. Another club is led which East wins with a diamond which South ruffs.

A club is led to dummy and East cashes his Queen. South then cashes his King and leads a heart. West is forced to a small heart. West is forced to lead and must lead a diamond or a spade.

At this point dummy and East each hold three trumps, while declarer has the act and queen of hearts.

Whatever West leads is trumped in dummy, and you can see East's

predilection. If West ruffs low, declarer can afford to hold his trump; while if he trumps with the King, declarer will overtrump with the Ace. So out goes East's bid.

However, if the defense is alert,

they can defeat this hand, as I will show you tomorrow.

### Debunker

There are many capes along the shores of Africa, and the Cape of Good Hope is not the southernmost extremity of that continent, but it is not at the southernmost tip. The coast of Africa curves westward southwest for nearly a hundred miles below the Cape of Good Hope and the southernmost point is the farthest south is the Cape of Agulhas. This southernmost Cape is not at the southernmost extremity of Africa, because the latter is located in the city of Cape Town, a modern metropolis.

Your judgment is good. Children

are part of the household and should feel the necessity to greet guests, be nice to them, show them some of their handbook, or "perpetual calendar," or whatever it may be excused. They are your guests. They come to enjoy you, your company, and your children. Let the children to act their work. One mother said she would like a discussion with the teacher, but the children should be dealt with when they were guests.

They are not children of my own," she writes. "I often thought

coughing conversations, racing through rooms, etc. All my friends

were not as normal as the state of affairs which must be put up with.

When I first exhibited

them to the teacher, I was

simply don't know what I expected

of them.

Should they be made to sit

quietly or be relegated to their own room and get into heaven know?

Should they be allowed in the room with the visitors and given time to play and talk and interrupt? This would seem to

mean constant admissions and admissions of parents.

"My youngest love company

but I hate to see them running around the room. The boy of 4 is quite reasonable. The 2-year-old girl is a little flurried, but she is growing up. This makes her irrepressible—and her brother starts to show off. Am I right? I would like to let them meet the guests, talk to them and then be banished! I adore my children and would like to be admired, but however seems best."

# Central and North Alberta News Funeral Services

## \$20,000 Theatre Is Included In Land Deals at Bonnyville

BONNYVILLE—A motion picture theatre and dance hall expected to cost \$20,000 will be built in the spring by Joe Prefontaine, prominent hotelman, Mr. Prefontaine recently sold his business interests as well as centrally located lots on which construction is to be made. Pauline, Mrs. Prefontaine's mother, has been operating the Central Theatre here for a number of years.

Omar Gingras' property on Main st., one of the oldest landmarks in the village, was purchased recently by Lorne and Mabel Wilson and Dr. L. J. Ayotte, for a reported price of \$14,000.

The Wilsons' home has been owned by the Gingras family since 1912 and includes six large town lots as well

### Camrose in Favor Municipal Hospital

CAMROSE — Ratepayers here voted 192 to 29 in favor of joining the municipal hospital board.

The 291 vote was considered a fair proportion of the resident population of town. Thus the vote was carried by a majority of 44 percent and a further vote will be taken by the ratepayers to determine if the rural electors have the same opinion.

as a large residence and a blacksmith shop. It is expected that the blacksmith shop will be moved to another location.

## Expenditures are \$207,000 Pembina School Division

WESTLOCK — Provincial subdivisional meetings in Westlock, has just completed its series of six annual sub-divisional meetings.

Trustee W. S. Shuterland, who terms himself a "teacher," turned up to speak for another three days. He has already served five times.

In sub-division one, L. L. Land

**Minimize Damage In Two Hills Fire**

TWO HILLS—Due to the exceptionally fine efforts of a bucket brigade organized by Postmaster Mr. D. Dowhan, a fire which threatened to burn down the entire business section of the town was checked by the efforts of the Crown Green Com-pany confined to minor damage. The loss is expected to total no more than \$600.

Mr. Dowhan, barricader here turned in the alarm. Quick action on the fire-fighters in 20 below zero weather saved the lives of 100 teachers for the 197 teachers who were housed in dormitories two-thirds away in corresponding courses.

Firemen who have started to work in a defective chimney in the lumber company's workshop was delayed.

## Sale T. B. Seals Half of Objective

RED DEER — Sale of Tuberculosis seals in the Red Deer area began last week and by Friday morning had raised \$4,000 to date, which is half of the objective set by the club.

Club officials are expecting a heavy increase in sales during the next few weeks and hope to have more of the colorful seals for their Christmas letters and packages.

John L. Bailey, in charge of the seal committee.

## Bonnyville Obtains Rink Water Supply

BONNYVILLE—Athletic clubs have completed an arrangement with the C.N.R. whereby 20,000 gallons of water will be supplied to the railway's watershed at Anshaw this winter to float the club's skating rink here.

A considerable amount of time was already being spent in over the rink to make the first ice and the rink is open to the public.

Hockey clubs here are proceeding in their plans for the winter at a frozen lake. A new rink and formation of a high school team including Cold Lake, Elk Point, St. Paul and Bonnyville are to be announced.

## Proceeds of \$1,000 Bonnyville Bazaar

BONNYVILLE—A successful bazaar was held in the parish hall here recently under the auspices of the Ladies of St. Anne and the Women's Auxiliary of St. Louis hospital.

Proceeds of \$1,000 were derived from the event, which was attended by 1,000 people. The St. Louis district Patriotic Council, the St. Louis Roman Catholic Church Organization committee, were headed by Mrs. E. H. Koth of Mrs. A. Marcotte, president, respectively, of the hospital auxiliary and the Ladies of St. Anne.

## Mrs. D. Gee Head Of Mission Circle Ponoka-Yellow Woman's Mission

CUMMING—A successful meeting was held in the church hall here recently under the auspices of the Ladies of St. Anne and Arthur Schurman and a new executive was named. Those elected were: Mrs. N. W. Wayan, president; Mrs. A. Prefontaine, treasurer; Mrs. A. Hoenshine, monthly secretary; Mrs. Scott and assistant secretary.

Christmas cards were sung and several games were played by Mrs. Scott and the girls. Refreshments served a delicious lunch. January meeting will be held at the home of Mrs. W. Wayan.

## Millett W. I. Head I. Mrs. M. Marr

MILLET—Mrs. Millett was elected president of the Millett I.W.I. Women's Institute, election of officers was held recently in the home of Mrs. E. R. Hocken.

Others on the executive are: vice-president, Mrs. G. Morrison; treasurer, Mrs. H. Phillips; and assistant secretary, Mrs. D. Wagner.

Plans were made to pack an overnight bag for each girl in the band. January meeting will be held in the home of Mrs. Howard Higgins.

## Teachers Destroyed Red Deer

MILLET—Miss Lily Wilson, teacher at Shady Nook lost all of her possessions in a fire over the weekend while sleeping in the Shady Nook teacherage. Cause of the fire is unknown. The damage has been estimated at nearly \$4,000 for the teacherage building and Miss Wilson's losses.

Christmas Seals save lives.

### For A. Campbell

CAMPBELL — Funeral services were held here recently for Archie D. Campbell of Rochester who died suddenly of a heart attack at the age of 63 years. Rev. Gray Rivers officiated.

He survived by two daughters, Miss Doris Campbell, Edmonton and Mrs. Calder Wattie, Winnipeg. Mrs. Campbell died in 1942, 10 years ago. Mr. Campbell was a widely-known figure in Camrose for many years having been proprietor of the Windsor hotel, and a licensed auctioneer. He became interested in fox farming on a modest scale and later moved to a small property in the west part of the town.

Following Mrs. Campbell's death, Mr. Campbell's son, John, and about three months ago to Rochester where he had bought a farm and was engaged in fruit farming.

John Campbell was born at Glenrose. On in 1882. He came to Saskatchewan, and 26 years ago was manager of the Glenrose hotel here for four years, and was a member of the hotelkeepers' association.

Mrs. Campbell was the former Ethelene Smith of Glenwood, Minn.

Mr. Campbell was active in racing, and was a member of the Glenrose racing club, well remembered in racing circles.

Among his community interests he was a member of the Masonic Lodge. He was also a member of the Masonic fraternity.

He was a member of the Royal Canadian Legion and the Moose Club.
